

LF3015GR

LF60M Automatic pipe laser cutting machine can easily adjust and applied to cut different shapes when cutting various sizes and shapes of pipe materials due to the use of more advanced automatic adjustment chuck.

Double platform plate & tube integrated machine, collected plate cutting and tube cutting into one.

The two tables can exchange via 1 key ,Safe and efficient feeding & uploading.

Front & back all equip automatic chuck , Automatic adaptation, realize intelligent cutting.

Technical Parameter

Machine Model	LF3015GR
Laser power	500W 750W 1000W 2000W 3000W 4000W 6000W 8000W(Optional)
Dimension	7800*3580*2150mm
Working size	3050mm x 1050mm
Repeated positioning precision	±0.03mm
Max.Running Speed	120m/min
Max. Acceleration	1.0G
Voltage and frequency	380V 50Hz

Application Industry

Owing to the support of double platform ,LF3015GR has been widely used in many industries, also showed great advantages in the efficiency of production and processing. Short uploading time will bring more profits for the company.
