

LF3015L

LF3015L Fiber Laser Cutting Machine is one classic model designed for sheet metal processing. Machine body integral welding to confirm the machine stability and cutting precision at high speed running.

Machine body integration design, more stable.

Import parts and components to ensure cutting speed and quality.

Classic model, withstand the test of market application.

Technical Parameter

Machine Model	LF3015L/LF4515L
Laser power	500W 750W 1000W 2000W 3000W(Optional)
Dimension	4440* 2500*1860mm 6140*2605*1850mm
Working area	3000mm x 1500mm
Repeated positioning accuracy	±0.03mm
Max.Running Speed	80m/min
Max. Acceleration	1G
Specified voltage and frequency	380V 50Hz/60Hz/60A

Application Industry

LF3015G fiber laser cutting machine can carry up to 8000W laser power, so cutting some thick plate, it is a very good choice. For example, agricultural machinery, textile machinery, food machinery and construction machinery and other large machinery and equipment manufacturing, usually use high power fiber laser cutting machine for processing.
