

LF20/30/50

In order to meet the needs of overseas markets, G·WEIKE launch CO2 laser cutting machine that can cut and engrave wood, cloth, leather, acrylic and other complex materials , provide professional industry solutions to reduce costs and improve profits for our customer .

Air cooled cooling system,
easy and quick installation, USB contacted with any
computer and installing
software easily.

Adopt imported parts, high speed , high accuracy.

small volume, no consumables, flexible. It can work
stably 50-100 thousand hours and without power
attenuation problem.

Technical Parameter

Standard marking area	100mm x 100mm 150mm x 150mm
Laser type	Ytterbium Fiber
Operation type	Q-switched
Laser power	10W 20W 30W 50W (Optional)
Each pulse energy (mj)	0.5 1
Laser wavelength (nm)	1060 -1070 nm
Pulse wave frequency	20 - 80 Khz
Graphic format supported	SAF、PLT、DXF、CMX、EMF、AI、JOB、MCL、BMP

Application Industry

Suitable for metal materials and ABS hard plastic
